As used above:

U.S. Citizens/U.S. Hires (USN): U.S. Citizens are defined as citizens of the United States of America wherever hired and U.S. Hires are defined as non-U.S. citizens whose contract of hire was entered into in the United States of America.

Third Country Nationals (TCN) are defined as non-U.S. Citizens hired to work outside their respective country of permanent residence or hire if other than the United States of America.

Local Hires/Nationals (LN) are defined as non-U.S. Citizens hired to work within their country of hire or permanent residence.

Definition of Remuneration:

Remuneration includes wages and payroll. Wages are hereby defined as the money rate at which the service rendered by an employee is compensated by an employer under the contract of hiring in force at the time of the injury, including the reasonable value of any advantage which is received from the employer and included for purposes of any withholding of tax under subtitle c of the Internal Revenue Code of 1954 (relating to employment taxes). The term "wages" does not include fringe benefits, including (but not limited to) employer payments for or contributions to a retirement, pension, health and welfare, life insurance, training, social security or other employee or dependent benefit plan for the employee's or dependent's benefit, unemployment insurance/benefits, or any other employee's dependent entitlement. Unemployment benefits are not paid by the employer pursuant to a contract for hire or for services rendered in employment and shall not be considered as part of wages. Conversely, vacation and holiday pay are included in wage determinations and are considered earnings in the year paid even though they may be received after the date of the injury. Further, the reasonable value of any advantage received from the employer and subject to withholding, including an overseas allowance, incentive compensation, completion award, foreign housing allowance, and cost of living adjustment are included in wage computations.
